In today's housing market, many people are looking to enhance the beauty of their homes. Whether it is done through decorating or color schemes, Home Style Creations LLC can offer your home or office a unique and vibrant new look.

The Saratoga Springs - based business was started five years ago by Joanne Foresta and Stephanie Salway while they were working in Manhattan. Foresta had been running her own design business, while Salway had worked as an art director for a textile company.

"We get each other and work really well together," Salway said. "We started brainstorming about what we could do with our talents and we thought it was a great idea to start our own business."

Two years ago, they decided to relocate their business to Saratoga Springs, bringing their big city knowledge to a small town environment.

"We had careers in New York City that were very driven. We worked with some very strong-minded people, so you had to always be changing, so we have that background of constantly catering to people,"

Salway said.

Today the dynamic duo work all over the Capital Region focusing on murals, photo design, furniture, accessories, seasonal decorating and home shopping. They are employed by people to do everything from shopping for furniture, to designing color schemes, to decorating a home for a specific holiday season.

"There are a lot of do-it-yourself television shows out there right now, but there are people who don't want to do it themselves, and we want to offer those services to those people," Salway said.

Here in Saratoga, they have done work for businesses like Remarkable Finish

Hair Salon and Chauvin Family Dentistry. However, a majority of their work has focused on residential homes.

"Joanne and Stephanie are super talented. They made our offices look beautiful, and they are truly a pleasure to work with," Dr. Nicholas Chauvin said.

While employed by Chauvin Family Dentistry, the team did the entire office from concept to development. They presented boards that employed different techniques in each room and created five different operatives, each of them having a different theme. They even added clouds and ivy to the ceilings, allowing a pleasant
